NEDA’s Action Center
Frequently Asked Questions

1. Why should I create a username and password?
Create a username and password to have your information saved for future visits. Doing so will automatically tailor this website to the actions that are available to you, based upon your state of residence. If you’d rather not create a username and password, you can just enter your information to find a list of actions you can take right now to combat eating disorders in your community and in congress. If you do not create a username and password, you will need to re-enter this information each time you visit the site.

2. Who will have access to my information to know that I took action on a given issue?
Only NEDA staff and the person who you contact (legislative office) will know that you have taken action. This information is not shared by NEDA.

3. Can I share the action alerts via social media and email?
Yes, please do! There are share icons at the bottom of the right column. It’s so easy to spread the word!

4. What else can I do?
You can sign up for a free lobbying webinar to become trained to be an advocate in your state. This training will guide you on how you can work with policy makers on change in your community. Click on the “Register” button to sign up today. You can also email star@myneda.org for more information or to find out other ways to get involved.
